FIRE—DESECRATION—ARREST—FINE—IMPRISONMENT

In addition to the automobile rules the following sections of the rules and regulations, which are the law of the Park, should ever be kept in mind and faithfully observed:

1. PRESERVATION OF NATURAL FEATURES AND CURIOSITIES.—It is forbidden to remove or injure the sediments or incrustations around the geysers, hot springs, or steam vents; or to deface the same by written inscriptions or otherwise; or to throw any object or substance into the springs or steam vents; or to injure or disturb in any manner or to carry off any of the mineral deposits, specimens, natural curiosities, or wonders within the Park; or to ride or drive upon any of the geyser or hot spring formations, or to turn stock loose to graze in their vicinity.

The destruction, injury, defacement, or disturbance in any way of the public buildings, signs, equipment, or other property, trees, flowers, vegetation, rocks, mineral, animal, bird, or other life is prohibited: *Provided*, That flowers may be gathered in small quantities when, in the judgment of the Superintendent, their removal will not impair the beauty of the park.

2. CAMPING.—In order to preserve the natural scenery of the Park and to provide pure water and facilities for keeping the Park clean, permanent camp sites have been set apart for tourists visiting the Park in their own conveyances and no camping is permitted outside the specially designated sites. These camps have been used during past seasons; they will be used daily this year and for many years to come. It is necessary, therefore, that the following rules be strictly enforced for the protection of the health and comfort of the tourists who visit the Park in their own conveyances:

(a) Combustible rubbish shall be burned on campfires, and all other garbage and refuse of all kinds shall be placed in garbage cans, or, if cans are not available, placed in the pits provided at the edge of camp. At new or unfrequented camps garbage shall be burned or

carried to a place hidden from sight. Keep the camp very clean.

(b) There are thousands of visitors every year to each camp site and the water in the creeks and streams adjacent is not safe to drink. The water supply provided is pure and wholesome and it must be used. If, however, the water supply is not piped to grounds, consult rangers for sources to use. Tourists out on hiking parties must not contaminate watersheds of water supplies. They are indicated by signs, pipelines, and dams. There is plenty of pure water; be sure you get it.

(c) Campers and others shall not wash clothing or cooking utensils or pollute in any other manner the waters of the Park, or bathe in any of the streams near the regularly traveled thoroughfares in the Park without suitable bathing clothes.

(e) Wood for fuel shall be taken from dead or fallen trees.

3. FIRES.—Fires constitute one of the greatest perils to the Park; they shall not be kindled near trees, dead wood, moss, dry leaves, forest mold, or other vegetable refuse, but in some open space on rocks or earth. Should camp be made in a locality where no such open space exists or is provided, the dead wood, moss, dry leaves, etc., shall be scraped away to the rock or earth over an area considerably larger than that required for the fire. Fires shall be lighted only when necessary, and when no longer needed they shall be completely extinguished and all embers and bed smothered with earth or water so that there remains no possibility of reignition.

Especial care shall be taken that no lighted match, cigar, or cigarette is dropped in any grass, twigs, leaves, or tree mold.

5. BEARS.—Molesting, teasing, or touching the bears is prohibited.

14. DOGS AND CATS.—Dogs and cats may be transported through the Park, provided they are kept on a leash or in a crate while within the confines of the Park. All dogs and cats must be registered at the entrance ranger station. The Superintendent has authority to grant, in writing, special permission, if necessary, to retain dogs and cats in the Park unleashed.

17. The Government is in no way responsible for any kind of accident.

18. FINES AND PENALTIES.—Persons who render themselves obnoxious by disorderly conduct or bad behavior shall be subjected to the punishment hereinafter prescribed for violation of the foregoing regulations, or they may be summarily removed from the Park by the Superintendent and not allowed to return without permission in writing from the Director of the National Park Service or the Superintendent of the Park.

Any person who violates any of the foregoing regulations shall be deemed guilty of a misdemeanor and shall be subject to a fine of not more than \$500 or imprisonment not exceeding six months, or both, and be adjudged to pay all costs of the proceedings.

AUTOMOBILE AND MOTORCYCLE REGULATIONS

You should consult your guidebook for the complete rules and regulations of the Park. The following is an abstract of the motor vehicle rules:

1. The park gateways are open from 6 a. m. to 9:00 p. m. only.
2. Where a car is rented for the park trip, or is a jitney, it cannot be admitted unless the owner has a Government franchise to operate in the Park.
3. Motorcycles are admitted to the Park.
4. Motor trucks are subject to special restrictions and special permit fees.
5. At the Park gateway, a permit, good for the entire season must be procured, and must be kept for identification in the Park.
6. Fees for permits are \$3.00 for automobiles and \$1.00 for motorcycles.

7. (Quoted in full) Direction.—Automobiles shall pass around the road system forming the "loop" in the direction opposite to that of the hands of a clock, as indicated by the arrows printed in red on the automobile guide map. The reverse direction may be taken as follows:

Norris Junction (N. J.) to Mammoth Hot Springs (M. S.) any time, day or night.

Madison Junction (M. J.) to Norris Junction (N. J.) any time of day or night except the periods 9 a. m. to 11:30 a. m., and 2 p. m. to 4:30 p. m.

Upper Geyser Basin (Old Faithful—O. F.) to western entrance (W. E.) any time, day or night.

Canyon Junction (C. J.) to Lake Junction (L. J.) any time, day or night.

Mammoth Hot Springs (M. S.) to Tower Falls, early enough to reach Tower Falls by 1 p. m. (The road from Tower Falls to Canyon Junction (C. J.) is never open to southbound traffic.) Distance 20.2 miles.

Canyon Junction (C. J.) to Norris Junction (N. J.) direct, any time, day or night.

Lake Junction (L. J.) to West Thumb (W. T.) and south entrance (S. E.) (The road from Thumb to Old Faithful (O. F.) is never open to westbound traffic) any time, day or night.

Summit of Mt. Washburn (Mt. W.), down north side to Junction of Dunraven Pass road, thence to Canyon Junction (C. J.) after 3 p. m.

The Superintendent of the Park has authority to change routing of cars if necessary.

8. On park roads, automobiles while in motion, should keep a reasonable distance apart, except when passing; gears must be unmeshed except when shifting, tires and brakes must be in good condition, cars must carry one extra tire.

9. Speed limits are 15 miles per hour on grades, curves, and in restricted areas; not exceeding 30 miles per hour on straight stretches.

10. Horns shall be sounded when approaching curves, and before passing other vehicles or pedestrians.

11. Automobiles must be equipped with head and tail lights. Dim head lights when meeting other vehicles.

12. Muffler cut-outs must be closed while passing hotels, lodges, camps, and horses.

13. Relates to passing teams. Teams have the right of way.

14. Relates to overtaking vehicles.

15. Relates to accidents and stopovers.

16. Violation of the automobile rules and regulations is a misdemeanor and is punishable by a fine of not more than \$500, or imprisonment of not exceeding 6 months or both, plus costs of proceedings, or the automobile permit may be cancelled, and the offender ejected from the Park, or any combination of these penalties may be imposed.

GUIDE MAP SHOWING ROADS IN YELLOWSTONE NATIONAL PARK

CAMPING is permitted throughout the Park on specially designated camp sites easily recognized by signs. Leave clean grounds for the next camper.

DEPARTMENT OF THE INTERIOR NATIONAL PARK SERVICE

ADMINISTRATION OF THE PARK

Yellowstone National Park is in charge of the Superintendent, Mr. Horace M. Albright, whose office is at Mammoth Hot Springs, the Park headquarters. Complaints and suggestions should be addressed to this officer in writing. The telephone service is also available for notifying either the Superintendent or nearest ranger station for emergency complaints, reporting of reckless driving, forest fires, etc.

GUIDE AND INFORMATION SERVICE

Ranger naturalists conduct parties at Mammoth, Upper Geyser Basin, Yellowstone Lake and in the vicinity of Roosevelt Lodge. Many lectures are also given evenings. This service is rendered by the National Park Service ranger naturalists without charge or obligation of any kind.

The central Information Bureau and Park Museum are located at Mammoth Hot Springs. A branch museum is situated at Old Faithful. Maps and publications relating to all of the National Parks of the United States, together with a supply of road maps, are available at these offices. But there are unarmored rangers throughout the Park, and questions are gladly answered at hotels, lodges, stores, and picture shops.

PROTECTION OF THE PARK—THE RANGER STATION

The Park is protected by the ranger force under the direction of the Superintendent. The principal duties of the rangers include the patrolling of the roads and trails, control of automobile traffic, protection of the geysers and hot-spring formations, sanitation of camps, etc., but they also answer inquiries and give general information regarding the Park as opportunity permits. Do not hesitate to consult the rangers. They are here to aid you. Ranger stations are situated near every hotel, lodge, important auto camp, and every junction point on the road system.

POST OFFICE

Yellowstone Park, Wyo., is the address of the only post office in the Park. It is located in a large stone building at headquarters, Mammoth Hot Springs, back of the information office and museum. If you desire to have mail sent to you in the Park, ask the post master to forward it to you by the regular carrier service maintained on the Grand Loop Road each day, or he will forward your mail to any hotel, lodge, camp, or station at which you may be a guest.

MEDICAL SERVICE

The medical service of the Park is conducted by a physician and surgeon, who is located at headquarters at Mammoth Hot Springs. He will, however, promptly attend patients anywhere in the Park. There is a modern hospital, splendidly equipped, at Mammoth Hot Springs, and ambulance service is available to the hospital from all parts of the Park. There are trained nurses stationed at all hotels and lodges which are also provided with well equipped dispensaries. In case of accident or illness, requiring the services of a physician or nurse, you should proceed at once to the nearest hotel or lodge. If a ranger station is near, the telephone lines of the Park will be available for summoning medical service, and the rangers on station will render all aid possible under the circumstances.

WONDERFUL GEYSERS AND SPRINGS OF THE YELLOWSTONE

NORRIS GEYSER BASIN

Name	Height of Eruption	Duration of Eruption	Interval between Eruptions	Remarks	Heat of water
Black Geyser	15-20	5-15 seconds	9-15 seconds	Great steam vent	204.0
Crater Geyser	15-20	5-15 seconds	9-15 seconds	Great steam vent	198.0

Yellow Geyser	15-20	5-15 seconds	9-15 seconds	Great steam vent	198.0
Yellow Geyser	15-20	5-15 seconds	9-15 seconds	Great steam vent	198.0

CAMPING GROUNDS AND SANITATION

A system of free automobile camp grounds has been developed in Yellowstone National Park. These are being provided with pure running water, firewood, garbage disposal facilities, and flush toilets. The camp ground at Mammoth Hot Springs also has shower baths and a small laundry for self-service. However, you need not use these larger camp sites if you prefer solitude. Smaller camp grounds are easily recognized by the signs "Good Camp."

All camps, large or small, must be kept clean and sanitary. Leave a dirty camp ground and you will have to go back and clean it up, because the motorcycle patrol is very likely to catch you.

Be a good woodsman and put out your Camp Fire.

"Leave a clean camp and a clean record."

CAFETERIA SERVICE—DELICATESSEN

There are cafeterias in the automobile camp grounds at Old Faithful, West Thumb, Fishing Bridge at the Outlet of Lake Yellowstone Canyon, and Mammoth Hot Springs. Lunches are served in the store at Tower Falls, and in the Park Curio Shop at Mammoth Hot Springs. Cooked foods and package lunches are also available at these stations to visitors not wishing to eat in the cafeteria.

HOUSEKEEPING CAMP SERVICE

In the automobile camp grounds at Old Faithful, West Thumb, Fishing Bridge at the Outlet of Lake Yellowstone, and at Canyon Tower Falls, and Mammoth Hot Springs, there are tents or cabins available, at small cost to parties not wishing to use their own equipment. These are equipped with double bedsteads, springs, table, stove, bench, and wash stand. Bedding and cooking utensils, dishes, etc., may also be rented at low rates.

STORES AND NEWS STANDS

You do not have to overstock your automobile with supplies secured out side the Park, unless you have special reasons for doing so, as there are several stores in the Park carrying extensive lines of groceries, clothing, campers' supplies of all kinds, etc.

Stores are located at Mammoth Hot Springs, Old Faithful, West Thumb, Yellowstone Lake near the hotel and ranger station, Grand Canyon, and Tower Falls. There are also branch stores in several of the automobile camping grounds at Old Faithful, Fishing Bridge, Tower Falls, and Mammoth Hot Springs. There is a curio shop and a picnic parlor at Mammoth Hot Springs, where box lunches and meals are also available.

All stores and hotel and lodge news stands carry lines of curio and souvenirs.

PHOTOGRAPHS OF THE PARK

The authorized photographers, Haynes Picture Shops, Inc., maintain picture shops at Mammoth Hot Springs, Old Faithful, Fishing Bridge, Grand Canyon, and Tower Falls, and picture stands in all hotels and lodges. These picture shops in many stores and styles, they have hand painted enlargements, lantern slides, post cards, photographic and motion picture supplies, and guide books. They also have laboratories in the Park for developing, printing, and enlarging photographs for travelers.

GARAGES AND REPAIR SHOPS

There are storage garages at Mammoth Hot Springs, Old Faithful, Lake Hotel, and Canyon Hotel. At each of these points and at Old Faithful and Fishing Bridge, auto camps and at Tower Falls, there are repair shops and automobile supply stores.

GASOLINE AND OIL

Gasoline and oil stations are connected with all general stores and repair shops, and are also located in the automobile camp grounds at the Fishing Bridge near the outlet of Lake Yellowstone.

TELEGRAMS

Telegrams may be sent from hotels and lodges to any part of the world. Motorists who are camping in the public camp grounds should send telegrams to the hotels. Motorists expecting telegrams should have them addressed to Yellowstone Park, Wyoming, and may call for them at Mammoth Hotel. Lists of authorized telegrams are posted daily at hotels, lodges, and ranger stations. These lists are also posted at the ranger stations and conveyances. Inspect them daily. There is a telegram to you.

TELEPHONE MESSAGES

The Bell System maintains long distance telephone service to any point in the country from hotels, lodges, or ranger stations at regular rates.

The bears of the Park are very interesting, and we are not surprised that you want to feed and photograph them, but you must remember that they are wild animals, and are TREACHEROUS and DANGEROUS. Do not tease the bears by pretending you have food for them when you have none. You may get bitten. If you want to see grizzly bears, you will usually find some at the garbage pits back of Old Faithful, Lake, and Canyon Hotels at sun down or later. An armed ranger guards each pit, and you will be safe.

FISH AND FISHING

Yellowstone is the land of many waters, and the paradise of the angler. The game fish are the trout, the grayling, and in one lake, the yellow perch. Almost every stream and lake is a trout water, and the supply is kept up by constant restocking. THE DAYS LIMIT IS TEN FISH PER PERSON FISHING.

In July, living bait takes your best fish. In August and September, artificial flies will fill your basket. Trout fishing is a game of wits and conditions. If you don't succeed, blame the trout, or blame yourselves, but don't blame Yellowstone Park, for its waters are swarming.

If some former Yellowstone visitor has told you the trout in Yellowstone Lake are not fit to eat, let us tell you officially that your advisor was misinformed. Occasionally a trout caught IN LAKE YELLOWSTONE is found to harbor a small worm. This worm has been examined by noted scientists and found to be perfectly harmless.

WHY THE MOTOR FEE IS CHARGED

The automobile fee of \$3.00 or motor cycle fee of \$1.00 entitles you to use of Park roads and to the free use of the public automobile camp grounds, which have been developed at large expense to the Government. Combined ranger stations and community houses are available at Old Faithful, Yellowstone Lake, and near the Canyon Camp grounds, where campers may receive information from the rangers and where they may congregate in the evenings.

The purpose of the fee is sometimes misunderstood because the average citizen is not familiar with the financial policy of Congress. Congress, while always willing to appropriate funds for the maintenance, protection, and improvement of the National Parks, asks that those who use and enjoy these playgrounds shall contribute toward their administration and upkeep. Of course, the public utilities of the Park are required to pay to the Government taxes on their franchises, and these charges are based on the volume of business transacted by these enterprises.

All revenue derived by the collection of various fees (including automobile fees) and franchise charges is paid into the United States Treasury and an account rendered to Congress, but the money can not be expended in the Park. The automobile entrance fees are based on the mileage of automobile roads in the various parks and vary from 50 cents in some very small parks to \$3.00 in the Yellowstone where over 300 miles of road are available for the use of the motorist.

RIGHTS OF WAY ON ROADS

In driving on Park roads, YOU HAVE EQUAL RIGHTS WITH ALL OTHERS. The same necessary rules precisely that apply to you apply also to the transportation buses. Of course, ambulances here, as everywhere, have right of way which all men are glad to concede. So, also, Government cars on emergency trips. But these are the only exceptions.

The yellow cars of the Yellowstone Park Transportation Co. carrying passengers who have come by train are required to travel on schedule and should not be delayed. Should you not be driving your car at the maximum speed limits permissible, you should recognize an appropriate signal from drivers of the yellow cars and yield the right of way in order that they may continue on their regular schedule.

The Yellowstone Park Transportation Co. holds a franchise from the Federal Government authorizing it to conduct its transportation business on the Park road system. It is a public utility under the strict control of the Government. National park authorities prescribe the character of service that this company must furnish the public, and all rates are fixed by the Director of the National Park Service.

THE SPEED LIMIT

Be sure you read all the automobile regulations and give particular attention to the rules that limit the speed at which cars may be operated. The limits are 15 miles per hour on grades, in restricted areas, and when rounding sharp curves; on straight stretches of good roads the speed may be increased but to exceed 30 miles per hour.

If these limits are exceeded by other motorists, or by drivers of the yellow cars of the Yellowstone Park Transportation Co., you will perform a public service if you would report violations of the regulations at the ranger stations or to the motor cycle patrol, giving number of violator's cars for identification purposes.

AUTHORIZED RATES FOR PUBLIC UTILITIES

Remember that all rates are approved by the Government. Complaints regarding overcharges should be made to the Superintendent. Employees of the hotels, lodges, and transportation lines are not Government employees, but dishonest treatment by public utility employees should be reported to the Park Administration.

YELLOWSTONE PARK HOTEL COMPANY

Hotels are located at Mammoth Hot Springs, the Upper Geyser Basin, the outlet of Yellowstone Lake, and the Grand Canyon of the Yellowstone.

Hotel Rates

Board and lodging, American plan, regular season, motorist's not including private bath, per day, early breakfast	\$4.50
Board and lodging, including private bath according to the room's position and sum-	\$5.50 (10)
Meals, including private bath, per day	2.00
Lodging, private bath, per day	1.50
Lunch	1.50
Dinner	1.50
Meals served in rooms, extra each	1.50
Children under 10 years of age, half rate; children in arms free	

THE YELLOWSTONE PARK LODGE AND CAMPS COMPANY

Lodges are located at Mammoth Hot Springs, Upper Geyser Basin, Yellowstone Lake, Grand Canyon of the Yellowstone, near Tower Falls, (Roosevelt Lodge), and at the Eastern (Cody) entrance.

Lodge Rates

Meals and lodging, American plan, per day	\$4.50
Breakfast, late breakfast, or dinner, per day	1.50
Meals served in rooms, extra each	1.50
Children under 10 years of age, half rate; children in arms free	

HOUSEKEEPING CAMP SERVICE

In the automobile camp grounds at Mammoth Hot Springs, Old Faithful, Fishing Bridge at outlet of Lake Yellowstone, Tower Falls, and Grand Canyon.

Cabin or cabin occupied by 1 person, per day	\$4.75
Cabin occupied by 2 or more persons, per day, per person	50
Children under 10 years of age, half rate; children in arms free	
Tents and cabins are available furnished with the following equipment:	
Single, one individual, one bed spring, one stove, one wash stand, one table, one bench	
Double, two individual, one bed spring, one stove, one wash stand, one table, one bench	
Persons, 100 lbs. or all their own camp equipment may rent the following items:	
Standard size mattress for two people, per day	80
Single size mattress for one person, per day	40
Blankets, per day	10
Two sheets, two pillows, two quilts, one two-hand towel, per day	10
One pillow, one blanket, one towel, per day	10
Knife, fork and spoon, per day	10
Cup and saucer, per day	10
Second and third wood per cubic foot	10
Lodging in fully equipped cabin or cabinette, per person, per day	1.50
Children under 10 years of age, half rate; children in arms free	

GUIDES, HORSES, AND CONVEYANCES

Guide animals for riding trips of one day or less duration, from hotels and lodges, rates daily, including transportation, feed, and stable	\$2.50
For full day, 4 hours	2.50
For half day, 2 hours	2.50
Mounted guides for saddle horse parties	2.50
Per day of mount	2.50
Per half day of 2 hours	1.25
Per hour	1.25

Horse, kept over 8 hours will be charged hourly rates for each hour over the 8-hour period.

Personally conducted saddle horse and mounted guide parties are available from hotels and lodges, except at Lake Yellowstone.

FISHING TRIPS

The following fishing trips are available from all lodges of the Yellowstone Park Lodge and Camps Company.

All day, 8 hours	\$2.50
Three days, 24 hours	7.50
One half day, 4 hours	1.25

Rates include a saddle horse and mounted guide who personally conducts the party.

BATHHOUSE, UPPER GEYSER BASIN

Henry P. Brothers, Proprietor. Bath in large pool, including use of bathing suit. Children under 10 years of age, half rate; children in arms free.

SWIMMING POOL—MAMMOTH LODGE

Bath in large pool, including use of bathing suit. Children under 10 years of age, half rate; children in arms free.

STORES AND PICTURE SHOPS

Stores and picture shops located at several points throughout the Park. Like other utilities are regulated as to rates charged for merchandise and services.

Photo finishing plants are operated at Mammoth, Upper Geyser Basin, Fishing Bridge, and Grand Canyon by Haynes Picture Shops, Inc.

All our data goes to show that there is a vast bed of still hot lava down below us. It heats the water and then forces it up through beds of limestone where much material is dissolved and brought to the surface to be redeposited by the hot springs. This redeposited material is "formation," a variety of limestone known to scientists as TRAVERTINE. It is deposited at the rate of as high as an inch in two weeks, but, as the active springs cover only a part of Terrace Hill at one time, it takes much longer to add an inch to the average height of the formation.

LAKE YELLOWSTONE

Yellowstone Lake now covers 139 square miles, and is one of the largest lakes in the world at so great an altitude (7,735 feet). It was once, however, very much larger. Yellowstone Lake is a child of the ice age. After the glacial epoch when the ice streams melted back toward their sources, a huge volume of water accumulated to fill the great basin of Yellowstone Lake and Hayden Valley. At that time the lake covered 310 square miles and was 160 feet deeper than now. It drained through Outlet Canyon and Heart Lake into Snake River and thence into the Pacific. Gases and steam had long been at work decomposing the rhyolite at the foot of Mt. Washburn which finally gave away and allowed the waters of the lake to rush to the north in a river, probably much larger than the present Yellowstone River, which carved out the Grand Canyon. With two outlets, the level of the water was lowered so that the northern outlet received the entire drainage—the greatest piracy of waters over the Continental Divide ever known to have occurred. The greatest depth now is 300 feet. Its shore line is approximately 100 miles.

Yellowstone Lake is in the heart of the game country. Bears, deer, and elk are all about it, especially in the higher valleys. Around the southern end of it is the home of the Yellowstone Moose, and in its waters are large numbers of other, while many Ospreys nest along shore and seek their fish food in the lake itself.

Molly Island, at the southern end of the Northeast Arm, is the most eastern breeding ground of the White Pelican. From 60 to 100 pairs are nesting there, and also about a thousand California gulls.

Because it is possible to collect, hatch, and protect trout eggs better under artificial conditions, a fish hatchery has been established near the hotel by the Bureau of Fisheries in cooperation with the National Park Service. Each year several million fish are hatched, reared, and distributed in Park waters for the benefit of future fishermen.

WHERE TO GO FROM YELLOWSTONE

Glacier National Park in Montana may be reached from Gardiner, the northern entrance, by following any one of the following routes: The Glacier Yellowstone Route via Livingston, White Sulphur Springs, Great Falls, and Choteau. The Flathead Valley Route via Livingston, Helena, Butte, Missoula, and Kalispell.

Hailey Park may also be reached from West Yellowstone, the west entrance, by travelling up the Gallatin Valley to Honeymoon, thence over the

AUTOMOBILE ROADS BETWEEN YELLOWSTONE, GLACIER, ROCKY MOUNTAIN, WIND CAVE, MESA VERDE, Bryce Canyon, and ZION NATIONAL PARKS.

Geysers to Glacier Highway, via Three Forks, Helena, Great Falls, and Butte, or by the Flathead Valley Route via Butte, Missoula, and Kalispell. Glacier is also reached from West Yellowstone via the Huby Valley or the Valley of Madison River to Hattie, thence via Missoula and Kalispell. Inquiry should be made at the West Yellowstone Ranger Station concerning road conditions.

Salt Lake City is also reached from West Yellowstone by following the main traveled road through Idaho via Ashton, Idaho Falls, Pocatello, and Ogden, Utah.

From the Cody or eastern entrance motorists may continue through Wyoming following the National Park to Park Highway to Cheyenne, where the Lincoln Highway is reached, and may continue south to the Rocky Mountain National Park and Denver.

Motorists may reach the National Parks Highway or Yellowstone Trail from Cody by turning north and following the main traveled road via Powell, Bridger, and Laurel to Billings, Mont.

At Billings the Custer Battlefield Highway is also reached.

From Cody motorists may continue east over the Black and Yellow Trail. This highway traverses the Black Hills of South Dakota, and a side trip to the Wind Cave National Park may be made from Rapid City, S. Dak.

From the southern or Snake River entrance motorists may travel the Wind River route over Togwotee Pass via Dubois and Lander to Rawlins, Wyo., on the Lincoln Highway, thence to Denver. From Lander the A. Y. P. Highway leads north and east to Chicago via the Black Hills of South Dakota.

From the southern entrance the Huback Canyon Road via Jackson and Pinedale, Wyo., gives another route to the Lincoln Highway, reaching it at Rock Springs, Wyo.

From the southern entrance Idaho points and Salt Lake City may be reached via the road through the Jackson Hole country, thence crossing the Teton Mountains through Teton Pass. The main traveled Idaho highway is reached at St. Anthony.

Ask at the Information Office at Mammoth, or at Old Faithful Museum for a map of the National Park-to-Park Highway.

DEPARTMENT OF THE INTERIOR

RAY LYMAN WILBUR, Secretary
NATIONAL PARK SERVICE

HORACE M. ALBRIGHT, Director

MOTORISTS GUIDE

Read and Use This Guide Constantly. Unless you do follow its advice and directions, you will not see and enjoy this great Park. Keep this guide because it cannot be replaced except at the Park entrances and at the Information Office at Mammoth.

Help us to protect your great Park. Strictly observe Rule 1. Please report violations, particularly carving of initials on the beautiful and delicate Geyser and Hot Spring formations.

YOUR PARK AND YOUR OBLIGATION

You have just entered Yellowstone National Park. You are within the portals of our largest playground, and the world's most amazing museum of volcanic phenomena.

The geysers, which here abound in greater numbers and magnificence than elsewhere in all the world, the sculptured Yellowstone Canyon, painted in all shades of the spectrum save blue, the great falls themselves, leaping from ledges of igneous rock, are eloquent of the tempestuous ages when all this region was torn with violent eruptions of volcanoes. Even the mountain profiles and the soft rolling surfaces are shapings of lava by many waters.

Every mile of Yellowstone is a wild flower garden, and over 80 per cent of its area is heavily timbered with great forests of spruce, pine, fir, and other varieties of trees. There are hundreds of lakes and streams of pure mountain water. It is our greatest game preserve.

And this Park is yours. It was reserved in 1872 to be held forever for the benefit and enjoyment of the people of the United States. You, its owners, are free to see it and enjoy it in your own way. You may live in the hotels or lodges, or camp out with your own equipment and supplies. You may stay days or weeks, as you choose. You may fish where you will in its countless waters, climb its mountains, explore its canyons, study its wild life.

THE NATIONAL PARK SERVICE

The National Park Service is here to serve you. Its regulations are in YOUR INTEREST to protect YOUR PROPERTY. In this you, as prudent owners, of course, will help. You, too, will warn the careless, and report those who deface these priceless and irreplaceable exhibits; for here, as elsewhere, there are always some thoughtless people.

We, the uniformed guardians, are few, and this property of yours is vast—3348 square miles, so we greatly need your watchfulness and help. Fire is our greatest enemy. Be careful with fire in the woods. One great fire, started even by a cigarette stub, could ruin the beauty of the Yellowstone for a hundred years.

BE SURE YOU SEE YELLOWSTONE

One important word before you start on your journey. Having come so far, see Yellowstone National Park before you leave. Do not miss anything you can see from your car, or by a reasonable walk. If you ride horseback go on the trails into the wilderness regions.

Two great spectacles are essential.

One is the hot water phenomena, the geysers, the hot springs with their attendant terraces, and the paint pots.

The other is the exquisite canyon of the Yellowstone. Two views of this, famous the world over, will suffice if time is short. One is from Inspiration Point, on the left or west rim; the other is from Artist Point, reached by crossing Chittenden Bridge just above the Upper Falls. See the Grand Canyon which inspired Moran to make his celebrated painting that hangs in the Capitol at Washington. Five miles of driving will take you within a few steps of both.

Do not turn left at Canyon Junction toward Morris Junction enroute to Old Faithful or Mammoth Hot Springs until you have seen the Grand Canyon which is less than a mile away.

If you want to walk trails that are among the most scenic in the world, leave your car at Canyon Hotel or Lodge and take the rim trails to Artist and Inspiration Points. The Artist Point Trail is one mile in length, the Inspiration Point Trail is two miles long. Also climb down the new Uncle Tom's Trail to the bottom of the Canyon.

WE INSIST that you see these great spectacles, but for the rest, you must choose for yourself. You have your automobile map in this guide, and the rangers are here to answer your questions. We strongly advise one thing: From the Canyon TAKE THE ROAD NORTH OVER DUNRAVEN PASS OR THE SUMMIT OF MOUNT WASHBURN. This is a wonderfully scenic road, wide and safe. Do not miss it. Take our advice, not the words of some other motorist who may not have had your capacity to appreciate and enjoy a magnificent view of mountains and forests.

AND NOW, GO TO IT.

GUIDE BOOKS—GET ONE

You will add greatly to the enjoyment of your trip if you will procure a guidebook of the Park, and refer to it as you go from one point of interest to another. At headquarters and at the ranger stations the National Park Service distributes free of charge a Government booklet describing all of the interesting features of the Park, the geyser and hot-springs phenomena, the canyons, lakes, mountains, forests, birds, animals, and fish. This booklet also contains the rules and regulations of the Park. It has a few illustrations.

The Haynes guidebook, an elaborately illustrated volume, approved by the National Park Service, is on sale in the hotels, lodges, stores, picture shops, and Park information office at 75 cents.

Put this folder in your guidebook where you can continue to refer to it.

**DRIVE CAREFULLY
AND DO YOUR SHARE
IN KEEPING THE ROADS SAFE
SPEED LIMITS 15 MILES ON CURVES
AND IN RESTRICTED AREAS, AND NOT TO
EXCEED 30 MILES ON STRAIGHT STRETCHES**

THE GRAND LOOP ROAD

The Grand Loop Road is about 150 miles in length, and is the highway system of the Park that makes accessible its greatest scenic features—The Grand Canyon of the Yellowstone, the Geysers, the Hot Spring Terraces, Lake Yellowstone, Mt. Washburn, and Dunraven Pass.

You will not see Yellowstone National Park if you do not see every mile of the Grand Loop Road, except the 11-mile section, or short-cut, between Canyon Junction and Norris Junction.

Dunraven Pass and Tower Falls we again especially urge you to visit. On their section of the Grand Loop Road, the scenery is magnificent, and here too are the most beautiful wild flower gardens of the Park. Be sure you do not miss them.

OTHER PARK ROADS

Yellowstone's highway system embraces altogether 360 miles of roads, not all of which are as well improved as the Grand Loop.

There are the four approach roads to the Grand Loop from the main gateways—The North or Gardiner, the West or West Yellowstone, the East or Cody, and the South or Snake River entrances; there is the unimproved road to the picturesque mining camp of Cooke City just beyond the northeast corner of the Park; there is the road from the Northwest or Gallatin Entrance to West Yellowstone, and there are 58 miles of roads outside the Park that belong to the system. There are 28 miles of the East approach through the Shoshone National Forest, and 30 miles of the South approach through the Teton National Forest from Moran to the Park line.

DIRECTION OF TRAVEL

In order that your tour of the Yellowstone may be comfortable, safe and complete, we route traffic around the Grand Loop Road in one direction only, that is in the direction opposite to the hands of a clock.

For instance, if you enter the Park at the Eastern or Cody Gateway, you should go first to Lake Yellowstone, thence on the Grand Loop to the Grand Canyon, thence to Tower Falls, thence to Mammoth Hot Springs, and finally to the Geysers. Or, if you enter at the Western Entrance, you should first go to the Geysers, thence to Lake Yellowstone, and on around the Grand Loop.

On certain sections of the Grand Loop, and at certain hours, this traffic control plan is modified. Consult Rule 7 of the Automobile Rules and Regulations below for further information, but do not deviate from this control system except in emergency. Your trip will be more enjoyable and complete if you take the regular route.

THE PARK MILEPOST SYSTEM

The milepost signs in Yellowstone National Park are diamond-shaped steel signs with raised letters, which are in every case initials of a junction point on the loop road system or a Park gateway. As a measure of economy these signs have not always been placed exactly 1 mile apart. Fractions of miles have sometimes been dropped in order that two mileage signs might always be placed on one steel post. For instance, between Gardiner, the north gateway, and Mammoth Hot Springs a speedometer indicates that the distance is slightly over 5 miles, yet the mileage signs state the distance as exactly 5 miles.

The following is a key to the milepost initials.

- N. E. North entrance, at Gardiner, Mont.
- W. E. West entrance, at West Yellowstone, Mont.
- E. E. East entrance, 54 miles west of Cody, Wyo.
- S. E. South entrance, 27 miles north of Moran, Wyo.
- M. S. Mammoth Hot Springs, where the north approach road joins the loop system.
- N. J. Norris Junction near Norris Geyser Basin, where a road leads directly across the Park to the Grand Canyon of the Yellowstone.
- M. J. Madison Junction, where the west approach road joins the loop system.
- O. F. Old Faithful, at the head of Upper Geyser Basin.
- W. T. West Thumb of Yellowstone Lake, where the south approach road joins the loop system.
- L. J. Lake Junction, where the east or Cody approach road joins the loop system.
- C. J. Canyon Junction, where a road leads directly across the park from the Grand Canyon of the Yellowstone to Norris Basin.
- T. J. Tower Falls Junction, where the road to the buffalo ranch and Cooke City leaves the loop system.
- MT. W. Summit of Mount Washburn.
- C. C. Cooke City, on a branch road which leaves the loop system at Tower Falls Junction.

There is a ranger station near each of the above entrances and junction points.
